

The 18th AIM International Workshop Young Researcher Presentation Award *Voting sheet*

Thank you for joining the 18th AIM International WS. We are pleased to introduce the “Young Researcher Presentation Award” from this WS. We would be pleased if you actively participate in this new program. Thank you.

What is Young Researcher Presentation Award?

Young researchers, the next generation leaders of AIM activities, need good skills in presenting their research achievements in international conferences. This award celebrates presentations delivered most impressively, effectively, and professionally by young speakers.

Who?

- Eligible: speakers **under 40 years old on as of Dec.14th** (listed on the backside page)
- Voter: **all participants**

What am I asked to do?

- Please vote for the best presentation in this WS.
- Note that good presentations do not necessarily mean those presented in good English and with good presentation techniques. The scientific quality, enthusiasm and commitment for research would be also taken into account.
- Your vote will encourage young researchers to further improve their research and presentation skill.

How to vote?

- Write the name of the best speaker (other than yourself) in the form below
- Voting for two or more speakers or yourself will be invalid.
- If you have any message to him/her, please also write it in the box below.
- Your message will be delivered to awardees.
- Put this sheet into the box on the front table.

How to celebrate?

- **Three speakers** with the largest number of votes will be awarded.
- Their name will be announced in the AIMWS web site.

Session	Name of best speaker	Message to him/her

[Please use this table for notes. This table is NOT for voting. Please select the best speaker and write his/her name **in the box on the front page.**]

Session	Speaker	1) Research quality	2) Presentation quality	Total1)+2)
		Quality of research Interesting topic Enthusiasm & commitment Progress of research Quality of discussion etc.	Inspiring, effective and impactful presentation Level of confidence & enthusiasm Clear structure & clear points Good allocation of time Visual aids easily seen by audience Use of eye contact etc.
