

Purpose of Session 2: Toward COP21 in Paris: INDCs

Toshihiko Masui

National Institute for Environmental Studies

Session 2: Toward COP21 in Paris: INDCs

The 20th AIM International Workshop

NIES, Tsukuba, Japan

January 23-24, 2015

The purpose of this session

- Share the information and knowledge on the INDC and its process.
- In addition, we consider how to promote this process toward COP21.

Agenda of the 19th AIM International Workshop

1. Features of your country's INDC

- Mitigation target
- Year
- Conditions
- How is the mitigation target decided?
- What is the public opinion to the target?

2. Role of Integrated Assessment Model during the domestic discussion?

- How can the model contribute to decide the target?

3. Others

Speakers from each country

- Japan Dr. Junichi Fujino (NIES, Japan)
- China Dr. Kejun Jiang (ERI, China)
- India Prof. P. R. Shukla (IIM, India)
- Korea Dr. Chan Park (NIES, Japan) on behalf of Prof. Dong Kun Lee (SNU, Korea) and Prof. Tae Yong Jun (KDI, Korea)
- Thailand Prof. Bundit Limmeechokchai (SIIT, Thailand)
- Indonesia Prof. Rizaldi Boer (IPB, Indonesia),
Prof. Retno Gumilang Dewi and Prof. Ucok WR Siagian (ITB, Indonesia)
- Malaysia Prof. Chin Siong Ho (UTM, Malaysia)
- Vietnam Dr. Tung Lam (ISPONRE, Vietnam)
- Nepal Prof. Ram Shrestha (AITM, Nepal)
- Cambodia Mr. Hak Mao (Ministry of Environment, Cambodia)
- USA Dr. Jae Edmonds (PNNL, USA)

MILES (Modeling and Informing Low Emission Strategies)

- Kick-off meeting was held at Paris 15-16 January 2015.
- Global model teams and National model teams (BRA, CHN, IND, JPN, EU, (IDN, MEX))
 - Assessment of INDC from the modeling perspectives
 - Replication of 450 ppm and other cases from global model teams using the national models.
- I hope this discussion will be feed backed to the discussion in Japan.
