

## Purpose of Session 2: Toward COP21 in Paris: INDCs

Toshihiko Masui

January 23, 2015

The purpose of this session is to share the information about the decision process and model contribution of INDC in each country. Through the information exchange, we promote the discussion on INDC and model development/application.

The following persons are main speakers on behalf of each country;

|           |  |
|-----------|--|
| Japan     | Dr. Junichi Fujino (NIES, Japan)   |
| China     | Dr. Kejun Jiang (ERI, China)   |
| India     | Prof. P. R. Shukla (IIM, India)  |
| Korea     | Dr. Chan Park (NIES, Japan) on behalf of Prof. Dong Kun Lee (SNU, Korea) and Prof. Tae Yong Jun (KDI, Korea) |
| Thailand  | Prof. Bundit Limmeechokchai (SIIT, Thailand)   |
| Indonesia | Prof. Rizaldi Boer (IPB, Indonesia), Prof. Retno Gumilang Dewi and Prof. Ucok WR Siagian (ITB, Indonesia)    |
| Malaysia  | Prof. Chin Siong Ho (UTM, Malaysia)  |
| Vietnam   | Dr. Tung Lam (ISPONRE, Vietnam)  |
| Nepal     | Prof. Ram Shrestha (AITM, Nepal)   |
| Cambodia  | Mr. Hak Mao (Ministry of Environment, Cambodia)  |
| USA       | Dr. Jae Edmonds (PNNL, USA)  |

I ask the speakers to make a presentation within 5 minutes as follows;

### 1. Features of your country's INDC

- Mitigation target
- Year
- Conditions
- How is the mitigation target decided?
- What is the public opinion to the target?

### 2. Role of Integrated Assessment Model during the domestic discussion

- How can the model contribute to decide the target?

### 3. Others

After the presentation, we will discuss freely on this issue.
