# Contribution of AIM in your countries

## [Goals]

- Update of NDCs (more ambitious target than previous one):  
>> middle-term scenario
- Assessment of "Long-term low carbon strategies":  
>> long-term scenario
- Development of "Adaptation plan"

## [Approaches]

1. Which collaboration is the most effective for the whole AIM activities?
2. How to collaborate with LCSRNet and LoCARNet?  
(We need collaboration with policy makers.)
3. Which update of the model is needed to achieve the goals and implement other issues?
