NIES JAPAN

# 29th AIM International Workshop

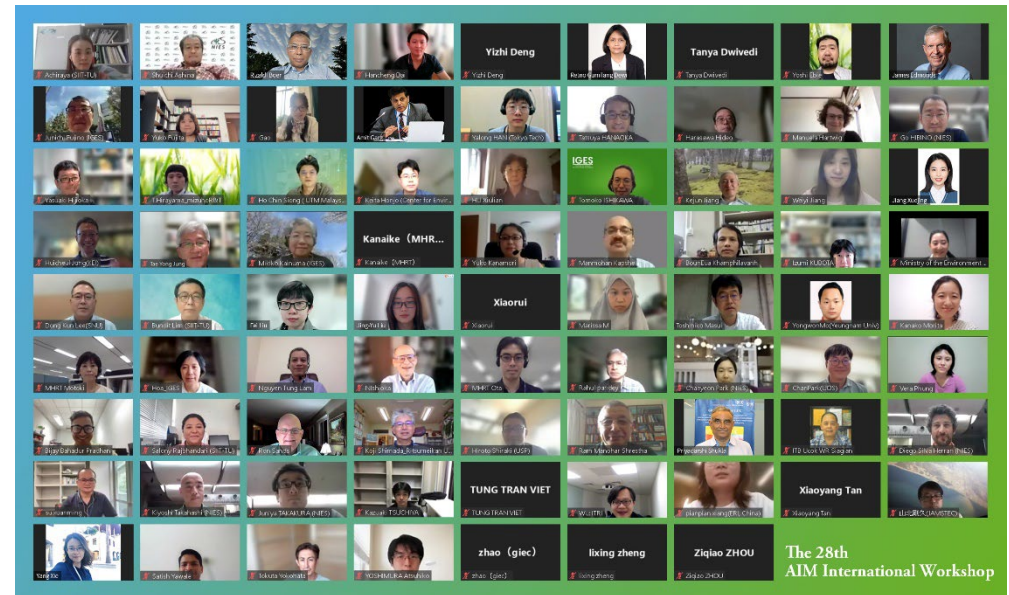

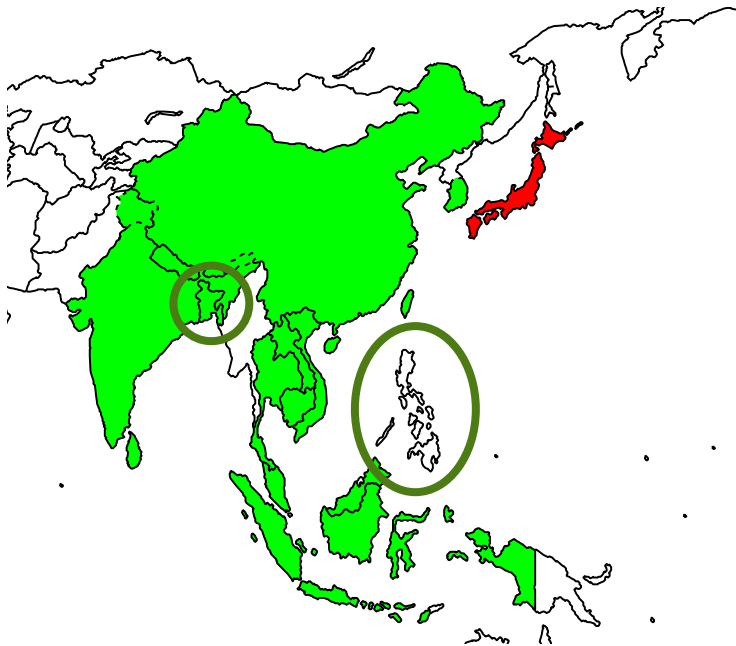

## September 14

- Session 1: Opening
- Session 2: GHG mitigations in Asia (1)
- Session 3: Poster Session and Reception

## September 15

- Session 4: Climate impact, adaptation, and sustainability
- Session 5: GHG mitigations in Asia (2)
- Session 6: AIM Activities; Past 20 Years and Next 20 Years
- Session 7: Closing

# International Network of AIM (Asia-Pacific Integrated Model)

The 28th AIM International Workshop (Sept.13-14, 2022; Online)  
<http://www-iam.nies.go.jp/aim/index.html>

- AIM (Asia-Pacific Integrated Model) project started in 1990.
- Asian countries/regions will update their mitigation target and roadmap to achieve the 1.5/2 degree target reflecting their issues to be solved and the resources to be endowed.
- Model can be a collaboration tool between science and decision making process. From the long-term viewpoint, each country/region will need the capacities to develop model and scenarios by itself.
- AIM has supported Asian countries/regions to develop the integrated assessment model (IAM) and their long-term low carbon/decarbonized scenarios.

# AIM/LoCARNet Meeting for Sharing Experience and Lessons between Researchers and Policymakers in Asia on September 13, 2023

# AIM Team is supporting climate policy in Asian countries/regions.

- More ambitious mitigation target is needed for 1.5 degree target.
- Climate change impacts become more severe.
